

Increase the security and resilience of European CIs, facilitating the coordinated protection of interrelated CI against combined physical and cyber threats.

The PRAETORIAN toolset supports the security managers of Critical Infrastructures (CI) in their decision making to anticipate and withstand potential cyber, physical or combined security threats to their own infrastructures and other interrelated CIs that could have a severe impact on their performance and/or the security of the population in their vicinity.

Physical Situation Awareness System

Cyber Situation Awareness System

Hybrid Situation Awareness System

Coordinated Response System

Coordinated by
ELECTRICITE DE FRANCE (EDF)

Starting date: **01/06/2021**
Duration in months: **24**

Funded by the European Union's
Horizon 2020 research and
innovation programme under
grant agreement No 101021274.
